DETAILED ACTION

Allowable Subject Matter

1. Claims 20-40 are allowed and are renumbered as 1-21.

The following is an examiner's statement of reasons for allowance: Claims 20-40 are allowable because the prior art made of record does not teach or fairly suggest the combination of elements as recited in independent Claim 20.

Specifically, the prior art of record does not teach:

- The method of encoding and decoding objects with reference to a traffic route network including relationship information, location references taken with the other limitations as recited in Claim 20.

The dependent claims being definite, further limiting and fully enabled by the Specification are also allowed.

These features, together with the other limitations of the independent claims are novel and non-obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
